

# Signalling / ETCS Engineer Rail (all gender)

Berlin

Reference Number: REF5277H

**#weareALTEN - the home of forward thinkers**

**We are the designers of today for the world of tomorrow.**

As one of the world's leading engineering service providers, we at ALTEN are committed to positively shaping the future of our partners, the careers of our employees and the challenges facing our society and environment.

More than 50,000 employees in 30 countries are already working on innovative solutions in various engineering and IT sectors such as automotive, aerospace, renewable energy, medical technology and railway technology.

**Make it happen**

**YOU...**

- analyze customer requirements
- integrate ETCS onboard and country-specific ATP systems into rail vehicles
- create concepts, system requirements specifications and electrical schematics
- participate in static & dynamic commissioning of the systems in rail vehicle as well as in type tests in the field
- ensure projects are delivered in compliance to relevant railway safety standards
- prepare evidences for authorization
- act as the interface with customers, assessors and suppliers

**Be our forward thinker**

**YOU...**

- have a degree level qualification in an engineering, scientific or mathematical discipline or equivalent experience
- bring knowledge on ETCS and Railway Signaling

- bring knowledge of Automatic Train Protection (ATP) on-board system is a plus
- ideally have experience in Railway sector
- speak fluent English (German is a plus)

We value diversity and therefore welcome all applications - regardless of gender, nationality, ethnic and social origin, religion/belief, disability, age and sexual orientation and identity.

Severely disabled persons will be given preferential consideration if they are equally qualified.

### **Do you have any questions?**
