

Simulation Software Developer (all gender)

Donauworth

Reference Number: REF4696H

#weareALTEN - the home of forward thinkers

We are the designers of today for the world of tomorrow.

As one of the world's leading engineering service providers, we at ALTEN are committed to positively shaping the future of our partners, the careers of our employees and the challenges facing our society and environment.

More than 50,000 employees in 30 countries are already working on innovative solutions in various engineering and IT sectors such as automotive, aerospace, renewable energy, medical technology and railway technology.

Make it happen

YOU...

- perform the documentation and provision of system definitions for simulation areas or subsystems in the aerospace industry
- apply design changes during hardware modifications
- examine the performance of the software and integrate software changes according to system requirements
- prepare and modify test cases to evaluate changes in requirements
- are the contact person for the project management and other project partners

Be our forward thinker

YOU...

- have completed engineering degree in aeronautical, electrical, computer science or comparable studies with a focus on simulation or modelling
- have at least 2 years of experience in programming languages such as C/C++ or Python, ideally in the aerospace industry

- have practical experience of system integration, preferably in a real-time software environment
- speak fluent English, further languages are a plus

We value diversity and therefore welcome all applications - regardless of gender, nationality, ethnic and social origin, religion/belief, disability, age and sexual orientation and identity.

Severely disabled persons will be given preferential consideration if they are equally qualified.

Do you have any questions?
