Software Developer Automotive (all gender)

Ingolstadt

Reference Number: REF4683Y

#weareALTEN - the home of forward thinkers

We are the designers of today for the world of tomorrow.

As one of the world's leading engineering service providers, we at ALTEN are committed to positively shaping the future of our partners, the careers of our employees and the challenges facing our society and environment.

More than 50,000 employees in 30 countries are already working on innovative solutions in various engineering and IT sectors such as automotive, aerospace, renewable energy, medical technology and railway technology.

Make it happen

YOU...

- do the software development for electrified vehicles
- integrate the developed functions into the overall model
- implement software drivers on connected hardware
- carry out and evaluate Unit, SIL and MIL tests in cooperation with the faculties involved departments

Be our forward thinker

YOU...

- have a degree in computer science, electrical engineering or similar
- have knowledge of software development with Matlab/Simulink, C and Python
- are fluent in English and German for international communication

We value diversity and therefore welcome all applications - regardless of gender, nationality, ethnic and social origin, religion/belief, disability, age and sexual orientation and identity.

Severely disabled persons will be given preferential consideration if they are equally qualified.

Do you have any questions?
