

Electrical Design Engineer (all gender)

Donauworth

Reference Number: REF7323E

#weareALTEN - the home of forward thinkers

We are the designers of today for the world of tomorrow.

As one of the world's leading engineering service providers, we at ALTEN are committed to positively shaping the future of our partners, the careers of our employees and the challenges facing our society and environment.

More than 50,000 employees in 30 countries are already working on innovative solutions in various engineering and IT sectors such as automotive, aerospace, renewable energy, medical technology and railway technology.

Make it happen

YOU...

- design the electrical circuits and diagrams for several helicopters
- apply design of an electrical panel
- examine the performance of electrical tools
- are the responsible person for the electrical integration ,Harness Design and Electrical Wireness

Be our forward thinker

YOU...

- have completed engineering degree in electrical, aeronautical or comparable studies with a focus on electrical design
- have at least 2 years of experience in electrical designing, ideally in the aerospace industry
- have practical experience of electrical diagram with tools like Catia V5, SEE Electrical
- speak fluent English, further languages are a plus

We value diversity and therefore welcome all applications - regardless of gender, nationality, ethnic and social origin, religion/belief, disability, age and sexual orientation and identity. Severely disabled persons will be given preferential consideration if they are equally qualified.
