

Manufacturing Engineer Aviation (all gender)

Munich

Reference Number: REF8888X

#weareALTEN - the home of forward thinkers

We are the designers of today for the world of tomorrow.

As one of the world's leading engineering service providers, we at ALTEN are committed to positively shaping the future of our partners, the careers of our employees and the challenges facing our society and environment.

More than 50,000 employees in 30 countries are already working on innovative solutions in various engineering and IT sectors such as automotive, aerospace, renewable energy, medical technology and railway technology.

Make it happen

YOU...

- are responsible for the industrial conception, planning and implementation of new assembly packages
- carry out the conception and design of production processes
- advise construction on design changes and new designs for series and prototype construction activities
- check construction documents and manufacturing regulations for optimal feasibility, taking into account known and new manufacturing processes
- support the creation of work plans and parts lists in accordance with design specifications
- lead the definition and further development of manufacturing concepts
- are contact person for internal customers and stakeholders

Be our forward thinker

YOU...

- have a degree in manufacturing, mechanical engineering, industrial engineering or production technology or a comparable qualification
- gathered already experience as manufacturing engineer, preferable within aviation industry
- have knowledge of CATIA V5 (Design 2D-3D) at best
- consider yourself as a team player and communicative person
- hold good communication skills in English; German would be a plus

We value diversity and therefore welcome all applications – regardless of gender, nationality, ethnic and social origin, religion/belief, disability, age and sexual orientation and identity.

Severely disabled persons will be given preferential consideration if they are equally qualified.
