Test Program Developer Semiconductor Industry (all gender)

Stuttgart

Reference Number: REF9221G

#weareALTEN - the home of forward thinkers

We are the designers of today for the world of tomorrow.

As one of the world's leading engineering service providers, we at ALTEN are committed to positively shaping the future of our partners, the careers of our employees and the challenges facing our society and environment.

More than 50,000 employees in 30 countries are already working on innovative solutions in various engineering and IT sectors such as automotive, aerospace, renewable energy, medical technology and railway technology.

Make it happen

YOU…

- develop a test program for the semiconductor testing industry
- support and work in close cooperation with Test Architects, Product Developers and Product Engineers
- develop test-concepts, test-programs and test-hardware based on the overall test strategy and according to the industrial requirements specification (IRS)
- are responsible for the reaching of test engineering related milestones
- are involved in digital test pattern conversions
- define and develop test methods and techniques
- are responsible for the development of production and characterization of hardware for automatic test equipment with high test coverage
- analyze the test data and report results to the design teams

Be our forward thinker

YOU…

- achieved an academic degree in Electronic Engineering, Microelectronics, Computer Science or related discipline
- have expert knowledge in semiconductor testing domain and test program development
- bring relevant experience in semiconductor testing industry
- have hands-on experience in hardware development or load-board design
- might have proven experience as a technical project lead (strong benefit)
- speak English and maybe German

We value diversity and therefore welcome all applications - regardless of gender, nationality, ethnic and social origin, religion/belief, disability, age and sexual orientation and identity.

Severely disabled persons will be given preferential consideration if they are equally qualified.
