

V.I.E Embedded Software Engineer Automotive (all gender)

Friedrichshafen

Reference Number: REF9353F

#weareALTEN - the home of forward thinkers

We are the designers of today for the world of tomorrow.

As one of the world's leading engineering service providers, we at ALTEN are committed to positively shaping the future of our partners, the careers of our employees and the challenges facing our society and environment.

More than 50,000 employees in 30 countries are already working on innovative solutions in various engineering and IT sectors such as automotive, aerospace, renewable energy, medical technology and railway technology.

Are you a graduate with EU citizenship aged 18 to 28 and want to gain work experience in Germany?

Find out more about the V.I.E programme at [Voluntary program V.I.E - International career at ALTEN Germany \(alten-germany.de\)](https://www.alten-germany.de/vie)

Make it happen

YOU...

- design innovative systems for projects in the automotive industry and coordinate them on a regular basis
- develop software architectures and software modules
- create test cases, execute module and system tests
- interact with German premium automotive manufacturers and suppliers throughout the whole development process

Be our forward thinker

YOU...

- fulfill the general V.I.E program requirements (EU-graduate, aged between 18 and 28 years)
- hold an university degree in Automotive or Electronics Engineering
- have good skills in C#/C++ programming
- have experience in software development processes
- have initial experiences with automotive embedded systems and bus syst (CAN, MOST, Flexray or LIN)
- have very good language skills in English, German knowledge desirable

We value diversity and therefore welcome all applications - regardless of gender, nationality, ethnic and social origin, religion/belief, disability, age and sexual orientation and identity.

Severely disabled persons will be given preferential consideration if they are equally qualified.
