

# Digital Design Engineer (all gender)

Munich

Reference Number: REF7439Z

**#weareALTEN - the home of forward thinkers**

**We are the designers of today for the world of tomorrow.**

As one of the world's leading engineering service providers, we at ALTEN are committed to positively shaping the future of our partners, the careers of our employees and the challenges facing our society and environment.

More than 50,000 employees in 30 countries are already working on innovative solutions in various engineering and IT sectors such as automotive, aerospace, renewable energy, medical technology and railway technology.

**Make it happen**

**YOU...**

- are responsible for organizing and implementing digital design IPs for microcontrollers and consumer applications
- create comprehensive digital IP designs, independently or as part of a larger design team
- perform design quality checks through synthesis, structural checks and design for testability
- validate UPF power intent specifications with suitable tools

**Be our forward thinker**

**YOU...**

- have a completed degree in electrical engineering, computer science or similar
- have practical experience with digital IP design and integration in complex SoCs
- have good knowledge of the following tools: SpyGlass LINT, Questa CDC or SpyGlass DFT
- have ability to work collaboratively as part of a team to complete a major design project
- have good communication skills in English

We value diversity and therefore welcome all applications - regardless of gender, nationality, ethnic and social origin, religion/belief, disability, age and sexual orientation and identity.

Severely disabled persons will be given preferential consideration if they are equally qualified.

### **Do you have any questions?**
