

ATE Test Engineer (all gender)

Munich

Reference Number: REF5084I

#weareALTEN - the home of forward thinkers

We are the designers of today for the world of tomorrow.

As one of the world's leading engineering service providers, we at ALTEN are committed to positively shaping the future of our partners, the careers of our employees and the challenges facing our society and environment.

More than 50,000 employees in 30 countries are already working on innovative solutions in various engineering and IT sectors such as automotive, aerospace, renewable energy, medical technology and railway technology.

Make it happen

YOU...

- implement test solutions on state-of-the-art production testers with current focus on Teradyne Flex/J750, Advantest 93k
- focus on the challenges in wafer and final component testing
- debug and transfer the test packages to the production facilities
- coordinate with design-, concept- and product engineering teams on test and DfT concepts, content and results

Be our forward thinker

YOU...

- have completed studies in the field of Electrical Engineering or a similar field
- have first work experience in the field of Semiconductor Test Engineering
- have practical experience in ATE (Teradyne and/or Advantest)
- have good communication skills in English

We value diversity and therefore welcome all applications - regardless of gender, nationality, ethnic and social origin, religion/belief, disability, age and sexual orientation and identity.

Severely disabled persons will be given preferential consideration if they are equally qualified.

Do you have any questions?
