**#weareALTEN - the home of forward thinkers**

**We are the designers of today for the world of tomorrow.**

As one of the world's leading engineering service providers, we at ALTEN are committed to positively shaping the future of our partners, the careers of our employees and the challenges facing our society and environment.

More than 50,000 employees in 30 countries are already working on innovative solutions in various engineering and IT sectors such as automotive, aerospace, renewable energy, medical technology and railway technology.

**Make it happen**

**YOU...**

- develop and manage control decks for Design Rule Checks (DRC) for various chip technology platforms
- provide high quality rule decks and ensure rule functionality
- develop and manage automation scripts to support the workflow
- provide a test bench in the customer's test environment based on both your own and the customer's test cases

**Be our forward thinker**

**YOU...**

- have completed engineering degree in electrical engineering, computer science or similar studies
- already have practical experience in DRL rule deck coding using Calibre®
- have good knowledge of Siemens EDA® or Cadence EDA®, scripting languages like Python, Perl or Tcl
- have good communication skills in English

We value diversity and therefore welcome all applications - regardless of gender, nationality, ethnic and social origin, religion/belief, disability, age and sexual orientation and identity.

Severely disabled persons will be given preferential consideration if they are equally qualified.
