

Software Developer JAVA (all gender)

Friedrichshafen

Reference Number: REF4713I

#weareALTEN - the home of forward thinkers

We are the designers of today for the world of tomorrow.

As one of the world's leading engineering service providers, we at ALTEN are committed to positively shaping the future of our partners, the careers of our employees and the challenges facing our society and environment.

More than 50,000 employees in 30 countries are already working on innovative solutions in various engineering and IT sectors such as automotive, aerospace, renewable energy, medical technology and railway technology.

Make it happen

YOU...

- develop Java code for modern, scalable services and other backend components using modern development tools
- implement changes to existing software and support the qualification of development phases
- document the progress of the work and perform software analysis due to the high quality assurance required
- identify the potential for improvement of software, tools and processes

Be our forward thinker

YOU...

- have a university or college degree in computer science, mathematics, electrical engineering or equivalent
- already have practical experience of the programming languages Java as well as Eclipse RCP, C/C++ or another high-level programming language
- have experience with the development environment NetBeans
- speak fluent English, further languages are a plus

We value diversity and therefore welcome all applications - regardless of gender, nationality, ethnic and social origin, religion/belief, disability, age and sexual orientation and identity.

Severely disabled persons will be given preferential consideration if they are equally qualified.

Do you have any questions?

Then contact me: Beatriz Jurado Garcia (+49 162 9941960)

Or apply now using our online application form.

A home where people learn and thrive

- **Talent Management** - we develop your career
