

V.I.E Aviation Consultant (all gender)

Hamburg

Reference Number: REF4978I

#weareALTEN - the home of forward thinkers

We are the designers of today for the world of tomorrow.

As one of the world's leading engineering service providers, we at ALTEN are committed to positively shaping the future of our partners, the careers of our employees and the challenges facing our society and environment.

More than 50,000 employees in 30 countries are already working on innovative solutions in various engineering and IT sectors such as automotive, aerospace, renewable energy, medical technology and railway technology.

Are you a graduate with EU citizenship aged 18 to 28 and want to gain work experience in Germany?

Find out more about the V.I.E programme at [Voluntary program V.I.E - International career at ALTEN Germany \(alten-germany.de\)](https://www.alten-germany.de)

Make it happen

YOU...

- are involved in designing, developing, and improving the manufacturing processes, systems, and equipment, in order to optimize the production process, reduce costs and improve quality (German needed)
- run process simulations, creating a virtual representation of the manufacturing process for verification and validation of different production rates and other variable perimeters
- are responsible for Business Process Modeling, creating diagrams or flowcharts that show the sequence of activities in the process to identify improvements
- use Value Stream Mapping, analyzing and designing production steps and buffer stocks to identify bottlenecks
- are responsible for digitalization:
 - Designing, building, testing or deploying computer software involved in the manufacturing process
 - Data analysis - collecting data, cleaning and transforming the data, and analyzing it to identify patterns, trends and anomalies in the process

Be our forward thinker

YOU...

- have completed a degree in mechanical, aeronautical or industrial engineering or a comparable course of study
- have knowledge of process engineering, production engineering in the aeronautics field
- are experienced handling of tools like Skywise, AnyLogic, SAP, ARIS or Microsoft Visio, CATIA, SolidWorks
- are ready to join a dynamic project environment
- are fluent in English and have a good command of German

We value diversity and therefore welcome all applications - regardless of gender, nationality, ethnic and social origin, religion/belief, disability, age and sexual orientation and identity.

Severely disabled persons will be given preferential consideration if they are equally qualified.
