

Software Developer C++ Aerospace (all gender)

Munich

Reference Number: REF15369B

#weareALLEN - the home of forward thinkers

We are the designers of today for the world of tomorrow.

As one of the world's leading engineering service providers, we at ALLEN are committed to positively shaping the future of our partners, the careers of our employees and the challenges facing our society and environment.

More than 50,000 employees in 30 countries are already working on innovative solutions in various engineering and IT sectors such as automotive, aerospace, renewable energy, medical technology and railway technology.

This position has the option to work in Munich, Ulm or Friedrichshafen.

Make it happen

YOU...

- develop C++ code for modern, scalable services and other backend components using modern development tools for our customer from aerospace
- implement changes to existing software and support the qualification of development phases
- document the progress of the work
- perform software analysis due to the high quality assurance required
- identify the potential for improvement of software, tools and processes

Be our forward thinker

YOU...

- have a university degree in computer science, mathematics, aerospace engineering or equivalent

- have long-term practical experience of the programming languages C++, Java and Python (other programming languages are a plus) and with the OS Linux
- have professional experience in aerospace projects, ideally with satellites
- have very good skills in documentation tools (e.g. Confluence)
- speak very good English, German skills are a plus

We value diversity and therefore welcome all applications - regardless of gender, nationality, ethnic and social origin, religion/belief, disability, age and sexual orientation and identity.

Severely disabled persons will be given preferential consideration if they are equally qualified.
