

V.I.E Software Engineer (all gender)

Manching

Reference Number: REF12448T

#weareALTEN - the home of forward thinkers

We are the designers of today for the world of tomorrow.

As one of the world's leading engineering service providers, we at ALTEN are committed to positively shaping the future of our partners, the careers of our employees and the challenges facing our society and environment.

More than 50,000 employees in 30 countries are already working on innovative solutions in various engineering and IT sectors such as automotive, aerospace, renewable energy, medical technology and railway technology.

Are you a graduate with EU citizenship aged 18 to 28 and want to gain work experience in Germany?

Find out more about the V.I.E programme at [Voluntary program V.I.E – International career at ALTEN Germany \(alten-germany.de\)](https://www.alten-germany.de)

Make it happen

We are seeking a talented V.I.E Software Engineer (all gender) to join our dynamic team in Manching, Germany. This exciting opportunity is part of the Volontariat International en Entreprise program, offering young professionals a chance to gain valuable international experience while contributing to innovative software projects.

YOU...

- develop and maintain high-quality software applications using various programming languages and frameworks
- collaborate with cross-functional teams to design, implement, and test new features
- participate in code reviews and provide constructive feedback to team members
- troubleshoot, debug, and optimize code to ensure efficient performance
- contribute to the continuous improvement of our development processes and methodologies
- stay up-to-date with emerging technologies and industry trends
- document technical specifications and maintain clear, concise code documentation
- assist in the analysis and resolution of software-related issues

Be our forward thinker

YOU..

- have eligibility for the V.I.E program
- have a Bachelor's or Master's degree in Computer Science, Software Engineering, or a related field
- are proficiency in one or more programming languages such as Java, Python, or C++
- are familiarity with software development methodologies (e.g., Agile, Scrum)
- have experience with version control systems, preferably Git
- have strong problem-solving skills and attention to detail
- Excellent teamwork and communication abilities
- have knowledge of database management and SQL
- have enthusiasm for learning new technologies and adapting to changing requirements
- have willingness to relocate to Manching, Germany for the duration of the program
- are fluency in English; knowledge of German or French is a plus

We value diversity and therefore welcome all applications - regardless of gender, nationality, ethnic and social origin, religion/belief, disability, age and sexual orientation and identity. Severely disabled persons will be given preferential consideration if they are equally qualified.
