

LabVIEW Software Developer – Semiconductor (all gender)

Munich

Reference Number: REF16266A

#weareALTEN - the home of forward thinkers

We are the designers of today for the world of tomorrow.

As one of the world's leading engineering service providers, we at ALTEN are committed to positively shaping the future of our partners, the careers of our employees and the challenges facing our society and environment.

More than 50,000 employees in 30 countries are already working on innovative solutions in various engineering and IT sectors such as automotive, aerospace, renewable energy, medical technology and railway technology.

Make it happen

YOU...

- customize and enhance the laboratory software environment within the characterization lab
- integrate lab software into the broader software landscape
- develop and maintain applications primarily in LabVIEW and additionally in Python
- collaborate with cross-functional teams in a semiconductor context
- support automation and optimization of lab workflows

Be our forward thinker

YOU...

- have completed engineering degree in electrical engineering, computer science or similar studies
- have professional experience with LabVIEW and Python
- bring solid semiconductor knowledge
- have worked in laboratory environments, especially in characterization or testing
- have good communication skills in English

We value diversity and therefore welcome all applications - regardless of gender, nationality, ethnic and social origin, religion/belief, disability, age and sexual orientation and identity.

Severely disabled persons will be given preferential consideration if they are equally qualified.
