

Electrical Technician Aerospace (all gender)

Friedrichshafen

Reference Number: REF13987Y

#weareALTEN - the home of forward thinkers

We are the designers of today for the world of tomorrow.

As one of the world's leading engineering service providers, we at ALTEN are committed to positively shaping the future of our partners, the careers of our employees and the challenges facing our society and environment.

More than 50,000 employees in 30 countries are already working on innovative solutions in various engineering and IT sectors such as automotive, aerospace, renewable energy, medical technology and railway technology.

Make it happen

YOU...

- are responsible for the pre-assembly of structural components such as harness and MLI fasteners (e.g. Tybases, standoffs, connector brackets, grounding straps)
- integrate test instruments (e.g., accelerometers, thermistors, heating elements, thermocouples)
- prepare and assemble AOCS panels
- expand safety circuits ("emergency switch-off harnesses")
- assemble 100V surge protection harnesses
- do the manufacturing of harnesses and test equipment including crimping, soldering, measuring and testing

Be our forward thinker

YOU...

- have a degree in Electrics or a comparable qualification

- gathered professional experience in the manufacturing of electrical harnesses, ideally in the aerospace industry
- know common manufacturing and test procedures (crimping, soldering, measuring, testing)
- consider yourself as a careful, structured and independent working person
- know English on a professional level; German would be a plus

We value diversity and therefore welcome all applications – regardless of gender, nationality, ethnic and social origin, religion/belief, disability, age and sexual orientation and identity.

Severely disabled persons will be given preferential consideration if they are equally qualified.
