Make it happen

YOU...

- coordinate various stakeholders necessary for the production activity (from suppliers to customers)
- are responsible for production scheduling and planning, ensuring components are delivered on time and meet aerospace quality requirements
- control stock levels, manage procurement of parts, and ensure supply chain continuity
- monitor and analyze production KPIs (on-time delivery, quality metrics, non-conformities, efficiency) and define improvement plans
- support quality initiatives such as audits, root cause analysis, and continuous improvement activities (Lean/6 sigma, process optimization)

Be our forward thinker

YOU...

- fulfill the general V.I.E program requirements (EU-graduate, aged between 18 and 28 years)
- have completed a mechanical, industrial, or aerospace engineering degree with a focus on production or quality techniques
- have initial experience in production planning, manufacturing engineering, or quality assurance, ideally in the aerospace industry
- have practical experience with ERP systems (e.g. SAP) and are comfortable analyzing production data
- are an open and communicative person with strong organizational skills
- speak fluent English and German; additional languages are a plus

We value diversity and therefore welcome all applications - regardless of gender, nationality, ethnic and social origin, religion/belief, disability, age and sexual orientation and identity.

Severely disabled persons will be given preferential consideration if they are equally qualified.
