

Software Engineer C#/.NET (all gender)

Munich

Reference Number: REF21149L

#weareALTEN - the home of forward thinkers

We are the designers of today for the world of tomorrow.

As one of the world's leading engineering service providers, we at ALTEN are committed to positively shaping the future of our partners, the careers of our employees and the challenges facing our society and environment.

Nearly 60,000 employees in 30 countries are already working on innovative solutions in various engineering and IT sectors such as aerospace, renewable energy, medical technology, railway technology and automotive.

Make it happen

YOU...

- design, develop and maintain C#/.NET-based testing software
- contribute to the design and development of measurement software and related tooling
- develop cross-platform, high-performance measurement algorithms
- support the continuous improvement of software architectures and development processes
- work closely with multidisciplinary engineering teams in an agile environment
- participate in code reviews, testing activities and software releases
- ensure software quality through unit testing and continuous integration practices
- contribute to technical documentation and knowledge sharing within the team

Be our forward thinker

YOU...

- have successfully completed studies in Computer Science, Software Engineering or a comparable field
- have professional experience in software development with C# and the .NET framework

- have experience working with agile software development methodologies and continuous integration
- are familiar with unit testing frameworks (e.g. Visual Studio Unit Testing Framework)
- have experience with configuration and release management tools such as Git
- have worked with issue tracking systems, for example Redmine
- speak English fluently
- have ideally gained first experience with C/C++, WPF and PRISM
- bring basic knowledge of Python, MATLAB and relational databases
- are familiar with CI/CD tools such as Jenkins
- have an interest in measurement software and ideally basic knowledge of vector network analysis and spectrum analysis
- communicate fluently in English; German language skills are considered an advantage

We value diversity and therefore welcome all applications regardless of gender, nationality, ethnic and social origin, religion/belief, disability, age, sexual orientation and identity.

Severely disabled persons will be given preferential consideration if they are equally qualified.

Apply now using our online application form.

A home where people learn and thrive

- **Talent Management** - we develop your career
- **Work life balance** - flexible working hours and mobile working possible
- **Fit and relaxed** – with EGYM Wellpass
- **Enjoy biking** – always on tour with bike leasing
- **Green Mobility** – with us you can travel at a reduced rate

...in addition we offer a permanent employment contract, corporate benefits and team events.
