Electromechanical / Lab Engineer (all gender)

Munich

Reference Number: REF20094N

#weareALTEN - the home of forward thinkers

We are the designers of today for the world of tomorrow.

As one of the world's leading engineering service providers, we at ALTEN are committed to positively shaping the future of our partners, the careers of our employees and the challenges facing our society and environment.

Nearly 60,000 employees in 30 countries are already working on innovative solutions in various engineering and IT sectors such as aerospace, renewable energy, medical technology, railway technology and automotive.

Make it happen

YOU…

- support lab and test equipment assembly
- perform PCB assembly and soldering
- carry out wiring, cable harnessing and crimping
- install and integrate electromechanical components
- execute mechanical assembly and modifications
- support troubleshooting, repairs and prototype builds
- maintain workshop tools, materials and equipment
- update technical documentation and CAD files

Be our forward thinker

YOU…

- have successfully completed studies in Electrical Engineering, Physics or a comparable field
- have strong soldering skills
- work confidently with a multimeter

- have basic oscilloscope knowledge
- use lab power supplies
- handle crimping and wiring tools
- bring hands?on experience in electronics, electromechanics, lab or workshop environments
- speak English fluently

We value diversity and therefore welcome all applications - regardless of gender, nationality, ethnic and social origin, religion/belief, disability, age and sexual orientation and identity.

Severely disabled persons will be given preferential consideration if they are equally qualified.

Apply now using our online application form.
